

Product Certification Services

Ensuring Trust, Quality, and Global Market Access

CERTECH GLOBAL provides **independent, third-party product certification** services to ensure that your products meet **international standards, regulatory requirements, and customer expectations**.

Our certification process is based on **ISO/IEC 17065:2012 – Conformity Assessment: Requirements for Bodies Certifying Products, Processes, and Services**, which guarantees **impartiality, transparency, and global recognition**.

Why Product Certification Matters?

In today’s competitive market, certified products stand out by demonstrating **safety, quality, and compliance**. Product certification delivers benefits to manufacturers, distributors, regulators, and end-users by providing:

- **Independent Verification** – proving compliance with relevant standards and regulations
- **Market Access** – meeting requirements for international trade and local regulations
- **Customer Confidence** – strengthening brand reputation and trust
- **Risk Reduction** – minimizing liability and product recalls
- **Competitive Advantage** – differentiating your products in a crowded marketplace

Our Product Certification Process

Our certification process is designed to be **efficient, transparent, and aligned with international best practices**:

Stage	Activity	Outcome
1. Application	Client submits product details and required documentation	Initial review and project planning
2. Documentation Review	Assessment of technical files, test reports, and compliance evidence	Identify gaps and readiness
3. Product Testing & Evaluation	Laboratory testing (internal or accredited external labs)	Verification of conformity
4. Factory Audit (if applicable)	Evaluate production controls and quality systems	Consistency assurance

5. Certification Decision	Independent review by our certification committee	Certification approval
6. Certificate Issuance	Granting of certificate with defined scope and validity	Market recognition
7. Surveillance	Ongoing monitoring through audits or product sampling	Continued compliance

Standards and Regulations CERTECH GLOBAL Works With

Our certification body operates with recognition across **international and national standards**, including but not limited to:

- **ISO/IEC standards** (ISO 9001, ISO 14001, ISO 22000, ISO 13485, ISO 50001, etc.)
- **CE Marking (EU Directives & Regulations)**
- **Global Sustainability and Carbon Footprint Standards**
- **National standards** (e.g., TSE, ASTM, BS, DIN)
- **Industry-specific schemes and regulations**

Benefits of Partnering with Us

- **Expert Technical Knowledge** – industry-specific experts and auditors
- **Efficient & Transparent Process** – reducing time to market
- **Compliance Assurance** – confidence in meeting legal and safety obligations
- **Sustainability Focus** – promoting environmental and social responsibility

Why Choose Us?

With our extensive network of technical experts, laboratories, and global partners, we provide **end-to-end product certification solutions** tailored to your business needs. Whether you are launching a new product or expanding into international markets, our certification services help you achieve **compliance, recognition, and customer trust**.
